

Assignment 2: Algorithmic Game Theory

Palash Dey
Indian Institute of Technology, Kharagpur

Deadline: September 15 2022, 11:59 PM

1. Show that the rock-paper-scissor game has a unique MSNE. Find the MSNE of this game.

[5 Marks]

2. In Local-Weighted-Max-Not-All-Equal-2SAT problem, we are given a set of 2SAT clauses each having a weight. An assignment of the variables is said to satisfy a clause if and only if it makes exactly one of its literal true. The goal is to find an assignment which is locally optimal — by changing the assignment of any one variable, it is not possible to increase the sum of weights of the clauses satisfied. Prove that Local-Weighted-Max-Not-All-Equal-2SAT is PLS-complete.
