

**Student-wise schedule**

| SNo | Roll No  | Name                 | Title  | Supervisor | Area                      | Examiner  |
|-----|----------|----------------------|--|------------|---------------------------|---|
| 1   | 03CS3003 | Piyush Goel          | Data hiding in digital images: A steganographic paradigm   | JM         | Multimedia, steganography | Partha Pratim Das 08-May-2008 02:00-02:45       |
| 2   | 03CS3004 | Digvijay Singh       | Micro-controller for sensor networks   | AP         | Hardware                  | Partha Pratim Das 08-May-2008 02:45-03:30       |
| 3   | 03CS3005 | Umang Jain           | Authenticated encryption, anonymous authentication   | DRC        | Cryptography              | Subhomoy Maitra 09-May-2008 02:00-02:45         |
| 4   | 03CS3006 | Pawan Singh Faujadar | Enegrgy efficient routing protocols in wireless sensor networks  | NG         | Networks                  | Subhas C Nandy 09-May-2008 02:00-02:45          |
| 5   | 03CS3007 | Arijit Ghosh         | Fault tolerant quantum computation   | SPP        | Theory                    | Subhas C Nandy 09-May-2008 02:45-03:30          |
| 6   | 03CS3008 | Mukesh Agrawal       | Scan based attack and prevention technique on stream cipher hardware & power profile modeling of sequential circuits | DRC,ISG    | Cryptography, hardware    | Subhomoy Maitra 09-May-2008 02:45-03:30         |
| 7   | 03CS3009 | Arpit Jain           | Intinno: A web integrated digital library and learning content management system                                     | PM         | Application, learning     | Partha Sarathi Dasgupta 09-May-2008 02:00-02:45 |
| 8   | 03CS3010 | Mayank Jain          | A generalized knowledge representation architecture for intelligent tutoring system                                  | PM         | Application, learning     | Partha Sarathi Dasgupta 09-May-2008 02:45-03:30 |
| 9   | 03CS3011 | Udit Sajjanhar       | Focused web crawling for e-learning content  | PM         | Application, learning     | Partha Sarathi Dasgupta 09-May-2008 03:30-04:15 |
| 10  | 03CS3012 | Rushin Shah          | Pushing points and grid optimization: Characterization and algorithms  | ArB        | Geometric algorithms      | Subhas C Nandy 09-May-2008 03:30-04:15          |
| 11  | 03CS3013 | Muneish Adya         | Audio watermarking resistant to MP3 compression  | ISG        | Steganography             | Chandan Mazumdar 09-May-2008 02:00-02:45        |
| 12  | 03CS3014 | Amar Kumar Dani      | Automatic identification of user goals in web search based on classification of click-through results                | CRM,PM     | Application               | Partha Sarathi Dasgupta 09-May-2008 04:15-05:00 |
| 13  | 03CS3015 | Nitin Bansal         | A new key schedule, anonymous authentication   | DRC        | Cryptography              | Subhomoy Maitra 09-May-2008 03:30-04:15         |
| 14  | 03CS3016 | Hema Swetha Koppula  | Study and improvement of robustness of overlay networks  | NG         | Networks                  | Chandan Mazumdar 09-May-2008 02:45-03:30        |
| 15  | 03CS3018 | Dipak Kumar Behera   | Droplet routing simulation in microfluidic biochips  | ISG        | Hardware                  | Partha Pratim Das 08-May-2008 03:30-04:15       |
| 16  | 03CS3019 | Pramod Kumar         | Scheduling verification in high-level synthesis: Implementation of a normalizer and a code motion verifier           | CRM,DS     | VLSI                      | Partha Pratim Das 08-May-2008 04:15-05:00       |
| 17  | 03CS3020 | Bhaben Deori         | A pipelined memoryless AES decryptor   | DRC        | Cryptography, hardware    | Subhomoy Maitra 09-May-2008 04:15-05:00         |
| 18  | 03CS3021 | Joy Deep Nath        | Study of word networks   | NG         | Networks                  | Chandan Mazumdar 09-May-2008 03:30-04:15        |
| 19  | 03CS3022 | Tathagata Das        | Random walk based search and community formation power law P2P networks  | NG         | Networks                  | Subhas C Nandy 09-May-2008 04:15-05:00          |
| 20  | 03CS3023 | Sankalp Agarwal      | Distributed checkpointing of virtual machines in Xen framework   | AG         | Distributed computing     | Chandan Mazumdar 09-May-2008 04:15-05:00        |
| 21  | 03CS3024 | Pankaj Jajoo         | Document clustering  | SS         | Information retrieval     | Sanghamitra Banerjee 09-May-2008 03:30-04:15    |
| 22  | 03CS3025 | Kumar Puspesh        | Multi-document update and opinion summarization  | SS         | Information retrieval     | Sanghamitra Banerjee 09-May-2008 04:15-05:00    |
