

UK-India Workshop on Managing Privacy in the age of IoT 19th of February, 2018 City, University of London 10:00 – 16:00

Room No: **AG04**

Directions to the Venue: <https://www.city.ac.uk/visit/campuses/northampton-square>

The Workshop on Privacy in the age of Internet of Things is the SAFE: Secure and Usable IoT Ecosystems project's primary outreach and collaboration-building event.

The aim of this workshop is to:

-Promote a high-level understanding of current landscape of Internet of Things applications and enablers.

-Initiate and advance public-private and cross-discipline collaboration necessary for the continued advancement and appropriate application of IoT capabilities.

The Workshop provides an excellent opportunity where academics and industries can dedicate a day focused on discussing Internet of things enablers, applications and issues.

This workshop is supported by British Council, UK and University Grants Commission, India.

Agenda

10:00 – 10:30	Arrival and Coffee
