

CS19003: Programming and Data Structures Lab Tentative Week-wise Assignment Schedule		
Week No	Dates	Tentative Lab Assignment Topics
1	04/01/21	Intro: Basic steps in program execution: typing/editing, compiling, running, Recommended programming environments, Instructions to open moodle account (cse), any other thing faculty wants to talk about.
2	04/08/21	Reading and printing variables, Arithmetic expressions, basic assignment statement
3	04/15/21	If statements
4	04/22/21	for/while loops
5	04/29/21	Test 1
6	05/06/21	1-d array, functions and recursion
7	05/13/21	Structures (labs on Monday will miss this week).
8	05/20/21	Mid Sem Break (No Lab)
9	05/27/21	Test 2
10	06/03/21	Structures, Strings, Parameter passing and return with pointers
11	06/10/21	Problems related to searching/sorting, dynamic memory allocation of 1-d array , Linked list
12	06/17/21	Test 3
