

# Lab Assignment

## Assignment 1

Using **Keras sequential embedding layer** try to build **embedding** for any **text**.

# Lab Assignment

## Assignment 2

Using **Gensim Word2Vec** try to build **embedding** for **Text 1**.

**Text 1** has many sort stories of king and queen.

# Lab Assignment

## Assignment 3

Using **Gensim Word2Vec** try to see how the **embedding** looks for **Text 1**.

**Text 1** has many sort stories of king and queen.

# Lab Assignment

## Assignment 4

Using **Gensim Word2Vec** try to solve the **above** using **Text 1**.

**Text 1** has many sort stories of king and queen.

# Lab Assignment

## Assignment 5

Using **Gensim Word2Vec** try to see the **apple vector** for **Text 2**.

Provide a conclusion of what you feel.

**Text 2** has various data regarding apple company and apple fruit.

# Lab Assignment

## Assignment 6

Using **pretrained embedding** try to solve the **above**.
